TRANSFORMATIVE REENTRY INITIATIVE

WELCOME TO TRI!

The Transformative Reentry Initiative (TRI) is an initiative of the Staten Island Justice Center (SIJC) that works collaboratively with community partners, individuals, and families to support individuals impacted by incarceration and the justice system.

SIJC utilizes an approach that is culturally responsive and is centered on the principles of equitable access, participation and leadership.

The goal is to facilitate access to resources and opportunities that empowers individuals, families, and communities to actualize and sustain successful reintegration into society.

BENEFITS OF TRI SERVICES

01

PostRelease Engagement: We engage and identify potential participants, while incarcerated. Together, we identify basic needs and short term goal pre-release. We provide discharge plans in partnership with the DOC, and also provide transportation upon release.

02

Mental Health, Wellness & Healing: We provide referrals to services for mental health and substance use disorder. We also provide weekly safe support circles and on-site short term counseling.

03

Leadership Development & Family Support: We offer you 1:1 peer support, group mentorship, family support services, mediation, and family reunification

04

Employment Opportunities: We offer individualized programming and services to support your employment path and goals, including paid career exploration and transitional employment opportunities. We also offer community resources and linkages to aid in your success.

WHAT TRI CAN PROVIDE

- Support to justice impacted and reentering community members
- Referrals and resources to service aligned on and off Staten Island
- Mentorship and a safe space to come to after incarceration
- Employment readiness and training

Employment

1. Paid participant internships
2. Interview preparation, resume writing, job search strategies and job placement
3. Supportive Services through employment process

Supportive Services
